Anti Spam Policy / Mass Mailing

Author:
W3HUB

Created On: 13 Apr 2010 4:40 PM

Any unsolicited email transmitted over w3hub.com 's network is strictly prohibited and will result in instant termination without notice. We do not want spam, we do not want bulk mailers, if your site has a mailing list, you better make sure it's double opt-in (if you don't know what that is, ask us) or eventually, someone is going report you as a spammer if you have more than a handful of subscribers. So please be very careful in regards to this issue.
